Consistent with the Jeanne Clery Act, as amended, Tufts University publishes the number of crimes reported on campus each year in its Annual Security Report. Please note that the University's Annual Security Report statistics differ from the OEO statistics listed above because of a number of factors including different: (1) reporting periods; (2) categories of reportable conduct; and (3) geographical limitations for the counting of reportable conduct. For this reason, the two data sets are different and will not match.
